# Weather Key Points

Regional Operations Center

Western Region

Tuesday, October 4

- Dry and warm October weather will prevail across the state through Friday, with low to locally moderate heat risk concerns developing into mid-to-late week, as afternoon temperatures warm 10-15 degrees above normal for many areas
- Fire weather conditions will remain locally elevated across the southern California mountains and foothills through at least Friday, and possibly into the weekend, as winds remain breezy, though critical fire weather conditions are not expected
- Isolated showers and thunderstorms could return to the southern California mountains Saturday through Monday. A few storms also can't be ruled out over the southern deserts and in the central or southern Sierra.

# Precipitation Forecast

Regional Operations Center

Western Region

Tuesday, October 4

Tuesday

Wednesday

Thursday

**Important Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

# Weather Outlook (6-14 Days)

Regional Operations Center  
Western Region  
Tuesday, October 4

## **6-10 Day Outlook (October 9 – October 13)**

### **Temperatures**

- Above normal temperatures are favored to persist statewide

### **Precipitation**

- Below normal precipitation is favored for northern California, near normal precipitation is favored for central California, and above normal precipitation is favored across southern California

## **8-14 Day Outlook (October 11 – October 17)**

### **Temperatures**

- Above normal temperatures are favored to continue once again

### **Precipitation**

- Below normal precipitation is favored for the northern half of the state, with near normal precipitation favored for much of southern California, with the exception of far southeast California where above normal precipitation is slightly favored

# Risk Assessment Matrix

Regional Operations Center

Western Region

Tuesday, October 4
